U Chair

Sylvain Willenz

The U Chair is a smart and elegant update of a classic cantilevered typology. Flat oval steel tubing, bent into simple shapes form the stackable structure, which is upholstered with a high tech 3D woven fabric.

The design is intentionally low tech and simple, offering a sober yet sophisticated piece of furniture, appropriate for office use, waiting areas or at home.

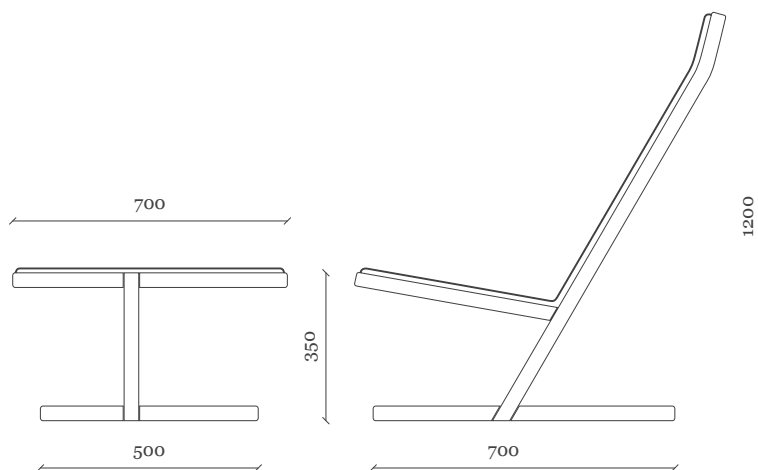

The U Low chair and its Ottoman are the first items of the U Chair Series, to be soon extended.

Dimensions:

Low Chair: H95xD90xW56

Ottoman: W72xL60xH36

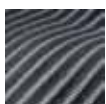

Available end 2009.
