Winnie

Marco Schmidt

Winnie is a comfortable swinging pouf which makes you rock.

To be honest, lack of time forced us to give up another project, so we came up with Winnie as alternative. More simple to develop and to produce! This fun shape allows you and your kids to rock at any time, at any place. Link them and you even have more fun.

Winnie is made out of 2 different densities of foam, a hard one under, for the rocking effect, a soft one on top, for the comfort. Available in wool and leather coverings. We're now working on an inflatable version.

Winnie is delivered in a box.
